Sharks! (We Both Read - Level 1-2 (Quality))

Synopsis

Students will learn all about these predators that live throughout Earth's oceans. Many different kinds of sharks are covered, along with their amazing abilities in hunting prey. The book helps dispel some common misconceptions about sharks and also helps to explain why sharks are important to the ecology of the oceans. The book also features spectacular photography and very helpful illustrations. Level 1 - 2 Guided Reading Level: H Non-Fiction

Customer Reviews

I read this book with my reading group (2nd grade). I used a document camera so we could read it up on the white board. They absolutely loved it! I didn't need to guide a discussion - they came up with excellent questions. I have purchased every nonfiction book in grade levels K, 1, and 2. I hope they write more!

Great book but a couple pages had been torn out.

Book was as described.

I'm bummed I missed the return deadline or it would have gone back for sure. he did not find it interesting at all
