I remember reading the interactive books as a teenager, and this brought me right back. In this story you must make decisions which take you through various aspects of World War I. There are 3 story paths, 41 choices and 21 endings. Each choice leads you to facts and information about life during World War I. It is educational, but in a fun and exciting way. Overall, I think it is more geared towards boys than girls, but anyone will enjoy this story.

My son has read most of the series and learned a great deal from these well written interactive history books. I would definitely recommend them! They are easy to read, and very interesting. The possibility to "choose your ending" keeps kids interested. Great for 8 and 9 year olds. A must read!

I loved the idea of this book and I felt that it was good education for the younger generation but it

went by too fast. The entire book might have just been a couple of pages.

My third grade twins (boy and girl) love taking these books out of their school library and wanted their own copies. Very engaging and educational.

My 10 year old son loves to read the choose your own adventure books to me. And loves the series with the war history.

Got this for my granddaughter and she enjoyed it and learned from it. This is a fun way to learn history.

My daughter really enjoyed getting this book, she said there was a lot of interesting information in it.

I was unaware that the book was half the size of a regular book, but I guess that is my fault for not reading the description. I think it should mention it elsewhere...most people assume books are the size of a regular book.
