## Customer Reviews

This came quickly and as described except that a page was missing. In a children's book this is a big deal. I was able to locate another copy locally and make a copy of the missing page. I didn't ask the vendor to correct the situation, but I imagine he would have. I specifically ordered from this vendor because of good past experience.

it is just a great way for kids to learn, they get really interested in the topics and makes them want to look more about things while having fun
