Customer Reviews

Taking a walk with Crinkleroot is a joy for parents and kids, and is likely to make a child-naturalist of them both (and isn't that the best kind?). Jim Arnosky is simply marvelous at conveying the wonder and tiny mysteries of the out-of-doors, both through his artwork and through his text. He's written many other nature books, and every one's a gem.

Crinkleroot is a family friend at our house. I enjoy that my kids ask to read them as a bedtime story, yet they are packed with educational information that sparks interest for their home school day. These books inspire us to go explore outdoors and get even our two year old involved in looking around as we hike.

Purchased for my great nephew, though only 2, he has a love of the outdoors. I am familiar with Jim Arnosky from my years as a Children's Librarian, pictures are catching, text is simple.

We received this book at Christmas time. We bought it as a used book and the previous owner took superb care of it! It has given my daughter and her dad great bonding time. I think it will prepare her for their hikes.
